Hi Veronica,

Thank you for checking with our team, and apologise for the delay in getting back to you. I should advise as this application is for signage on private land; our team does not have any involvement as a commercial assessment for a licence agreement is not applicable. Signage applications for commercial assessment should only be sent to our team where the application is for signage on TMR land (including state-controlled road corridor, freehold, or perpetual leased) and the region have already completed an assessment against the Roadside Advertising Manual (RAM).

Our team will leave this application with Metro Region for review and advice accordingly to the local council.

Hi Veronica

- Please send an email to BCC and inform that we need more time to assess this application.

Also please note the following comments.

- The application is proposing 3 large electronic advertising billboards near Gateway Mwy U13 C (TMR owns section of the Mwy.)
- The location is closer to the TMR/ Transurban boundary of the Mwy.
- Sign number 3 may be visible to Transurban owned section of the Mwy. Hence, I would suggest this application send to the following person as well for comments.

Hi Veronica

- Please send an email to BCC and inform that we need more time to assess this application.

Also please note the following comments.

- The application is proposing 3 large electronic advertising billboards near Gateway Mwy U13 C (TMR owns section of the Mwy.)
- The location is closer to the TMR/ Transurban boundary of the Mwy.
- Sign number 3 may be visible to Transurban owned section of the Mwy. Hence, I would suggest this application send to the following person as well for comments.

[N/R]

Stakeholder Manager Queensland

- Also, please check with TMR SPM area for any comments. The signs are within a private property but better to check with them as well.

Hi Veronica

- Please send an email to BCC and inform that we need more time to assess this application.

Also please note the following comments.

- The application is proposing 3 large electronic advertising billboards near Gateway Mwy U13 C (TMR owns section of the Mwy.)
- The location is closer to the TMR/ Transurban boundary of the Mwy.
- Sign number 3 may be visible to Transurban owned section of the Mwy. Hence, I would suggest this application send to the following person as well for comments.

Hi Veronica

Further to my email below.

Just thought of including only the following in the letter without providing any details related with the assessment.

All 3 advertising signs falls within "Device Distraction Area" and not compliant with the conditions in Roadside Advertising Manual, Technical Volume 2019.

Hence, installing the proposed 3 advertising signs cannot be supported.

If the applicant asks for reasons for rejection, then we can give them more detailed assessment report as mentioned at the bottom of my email.

Please let me know your thoughts after having a chat with Barbara and Scott.

Kind regards

Hi Veronica

- Please send an email to BCC and inform that we need more time to assess this application.

Also please note the following comments.

- The application is proposing 3 large electronic advertising billboards near Gateway Mwy U13 C (TMR owns section of the Mwy.)
- The location is closer to the TMR/ Transurban boundary of the Mwy.
- Sign number 3 may be visible to Transurban owned section of the Mwy. Hence, I would suggest this application send to the following person as well for comments.

N/R

Stakeholder Manager Queensland

- Also, please check with TMR SPM area for any comments. The signs are within a private property but better to check with them as well.

Hi Veronica

- Please send an email to BCC and inform that we need more time to assess this application.

Also please note the following comments.

- The application is proposing 3 large electronic advertising billboards near Gateway Mwy U13 C (TMR owns section of the Mwy.)
- The location is closer to the TMR/ Transurban boundary of the Mwy.
- Sign number 3 may be visible to Transurban owned section of the Mwy. Hence, I would suggest this application send to the following person as well for comments.

Hi Veronica

Further to my email below.

Just thought of including only the following in the letter without providing any details related with the assessment.

All 3 advertising signs falls within "Device Distraction Area" and not compliant with the conditions in Roadside Advertising Manual, Technical Volume 2019.

Hence, installing the proposed 3 advertising signs cannot be supported.

If the applicant asks for reasons for rejection, then we can give them more detailed assessment report as mentioned at the bottom of my email.

Please let me know your thoughts after having a chat with Barbara and Scott.

Kind regards

Hi Veronica

Further to my email below.

Just thought of including only the following in the letter without providing any details related with the assessment.

All 3 advertising signs falls within "Device Distraction Area" and not compliant with the conditions in Roadside Advertising Manual, Technical Volume 2019.

Hence, installing the proposed 3 advertising signs cannot be supported.

If the applicant asks for reasons for rejection, then we can give them more detailed assessment report as mentioned at the bottom of my email.

Please let me know your thoughts after having a chat with Barbara and Scott.

Kind regards

Hi Andrew,

Please find below final SME review of the Billboards, Nudgee Golf Club

No.	Reviewer	Initials	Reference Section	SME Comments / Concerns	Date	Category	SME Stakeholder (select department)	Review Status (select status)
1	Tgi			We have reviewed the proposed signs and as you say only sign 3 is in proximity to the TQ lease area. The sign is approximately 400m from the northern edge of our lease area and Gateway Motorway northbound visibility appears to be minimal. On that basis it is not expected to cause driver distraction or take focus away from critical signage within the TQ lease area.	25/03/2021	Category 1	Traffic Services (Strategy)	Review Completed
2	Fmo			As this is outside TU areas I have no concerns, going through all their attached documentation it should be properly managed with no impact to TU.	6/04/2021	Category 1	HSE	Review Completed
3	Ako			No concerns from a comms perspective.	6/04/2021	Category 1	Community Relations	Review Completed
4	BKI			From the plans supplied the sign will be located approx. 34m from the edge line, behind guardrail and fencing. As long as they abide by 3.6.1.5 of RAM then I see no issue from road safety prospective as they do not interfere with directional or speed signage as per photo below	6/04/2021	Category 1	Network Traffic (RSA)	Review Completed

			<p>Driving South Bound</p> 				
			<p>Driving North Bound</p> 				
5	Den		If this is outside the leased area, no comments from me	1/04/2021	Category 1	Commercial	Review Completed
