### Notes:

1. Sign-flex/Poly-flex shall only be used on roads with speed limits not exceeding 60km/h.
2. The Sign-flex/Poly-flex signage assembly shall be installed in accordance with the manufacturer's requirements.
3. Rear of the Sign-flex is coated with a suitable material to eliminate translucency of the sign and the coating shall be matte finish to avoid specular reflection of light from the surface.
4. Sign-flex assembly may be used for signs installed on median islands, the height to the underside of the sign shall not exceed 1.2 metres.
5. Retroreflective sheeting used in accordance with this product shall be as per the TMR Approved products list for retroreflective sheeting and shall not reduce the minimum warranty requirements for said retroreflective sheeting specified in MRTS14 Road Furniture.
6. Information on Optimast sign support is in the TMR Accepted Road Safety Barrier Systems and Devices.
